

SPECTATOR CODE OF CONDUCT

- Spectators are there to watch, support and cheer on their team from the sidelines. They should never get involved with the play of the game or come onto the field during play.
- Self control is paramount. Verbal and physical toxicity can spoil the game for everyone involved. Foul, lewd and crude language or gestures are not welcome or tolerated.
- Respect the full rights, dignity and worth of all participants at all times. Everyone deserves to feel comfortable, welcomed and included and these should be actively pursued.
- All forms of discrimination are unacceptable. Full stop. No one should be targeted due to their race, ethnicity, sex, gender, ability, or background.
- Never argue with the officials. Accept that they are calling the game to the best of their ability. No spectator should be approaching any official at any time unless invited by said official and no spectator should harass any official ever.
- Respect the opponent and do not intentionally move into, crowd or loiter in their bench space.
- Respect the facilities and equipment.
- Respect and adherence to any additional site, field or venue rules and regulations shall be observed. We have the privilege to play at these locations at the pleasure of their hosts.
- Failure to live up the spectator code of conduct can result in the loss of further participation, either temporarily or permanently, in leagues and events we host and run. We reserve the right to ask problematic spectators to leave the event space until our event has concluded.
